To Whom It May Concern

**RE: Joint eEducation training: Talai Secondary School in partnership  
with Real Medicine Enterprises (RME)**

This week, under my leadership, Talai Secondary School, in partnership with Real Medicine Enterprises, will provide a first training on online education for teachers of Talai Primary School. This training will take place over the course of three days at the computer lab of our school.

Having experienced significant disruptions in the education of our students in the course of 2020 and witnessing how the world is changing and online education is more and more becoming the solution of the future, we believe that this training can be a powerful step into this new reality.

In this week's training, we will onboard Talai Primary School teachers to eLearning requirements and share basic Information and Communications Technology tools, and thus prepare them to implement online education for their grade 1 - 8 students.

We believe that this training could become a model for training on eEducation for the county's more than 670 schools and close to 3,200 teachers. Baringo County has a total population of more than 800,000 people, with 320,000 between the ages of 3-17; the population is expected to grow by >120,000 people by 2030. Currently, more than 21,500 children of primary school age, and 55% of secondary school age youth in the county are out of school.

I look forward to seeing our partnership with RME, our joint trainings, and the provision of access to RME's online platform (anYmo) expand from here. Our joint endeavor has the potential to be life-changing for thousands of students.

Sincerely,

Silverino K Cheptarus  
Principal
